I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the patentability as defined in 37 C.F.R. §1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid by reason of a defective specification or drawing.

At least one error upon which reissue is based is described as follows:

The formal drawings filed in the parent case were inconsistent with the informal drawings in the Application (USSN 08/889,017) as originally filed on July 7, 1997. By clerical error, the wrong drawings of Figures 11-16 were filed as formal drawings during the prosecution of USSN 08/889,017. New Figures 18-23 are being submitted to correct this error. A correlation of the informal drawings originally filed with USSN 08/889,017 and the formal drawings filed on May 24, 2000, and the new drawings submitted herewith, is shown below.
